# MOELLER STONE CARE

## PRODUCT SPECIFICATION

### HMK® R165 - TERRACOTTA CLEANER

- **Special cleaner for terracotta, clay tiles, brick and block paving and acid tolerant natural and artificial stone.**
  - **Removes grout and cement residue, construction dirt, persistent lime scale deposits and efflorescence.**
    - **Suitable for interior and exterior use.**

HMK® R165 is a special concentrated acid based cleaner for removing grout and cement residue, construction dirt, persistent lime scale deposits and efflorescence from terracotta, clay tiles, brick and block paving, unglazed ceramic and porcelain tiles, concrete blocks, bricks and acid tolerant natural and artificial stone. Suitable for interior and exterior use.

**Note:** Do not apply in direct sunlight. Acid-sensitive surfaces such as polished and fine honed marble and limestone, metal and plastics etc... can be damaged by contact with HMK® R165. For the removal of light construction dirt use HMK® R155 Intensive Cleaner - acid free as an alternative.

**Instructions:** Protect all adjacent surfaces. If Under-floor heating exists switch it off and allow the surface to cool. HMK® R165 should be diluted with clean water (approx 1:2 to 1:10) depending on the intensity of the dirt. Working on manageable sized areas at a time, wet the surface to be treated before application and apply HMK® R165 to the wet surface and work in using a scrubbing brush, broom or a suitable pad. Leave it to work for a short time but do not allow it to dry, scrub the area again and remove the dirty liquid. After the application process is completed, clean the area thoroughly, using HMK® R155 Intensive Cleaner - acid free diluted approx 1:20 with clean water. Afterwards rinse the area thoroughly with clean water. Repeat the cleaning procedure in the case of very strong contamination.

When using a wet vacuum we recommend that you add HMK® Z702 Defoamer to the water to regulate the amount of foam.

**Coverage:** About 10-40m<sup>2</sup> per litre.

**Warning:** Chemical product. Contains inhibited dilute formic acid. Corrosive. Fumes may cause eye and skin burns and oxidation. Avoid eye/skin contact. If exposed, wash/flush with water and seek medical attention. Keep out of the reach of children. See Material Safety Data Sheet for more detailed information.

**Packaging:** 12 x 1 litre bottles/box; 2 x 5 litre cans/box; 2 x 10 litre cans/box.

**Storage:** Store in a cool place. Keep lid tightly closed.

**Testing:** Always test the product in an inconspicuous area to evaluate suitability, coverage and performance. Do not use the product in temperatures below 12° and above 25°C.

**Limitation of liability:** The liability of HMK® Moeller Stone Care for defective products and any claims for damages whatsoever is limited to the purchase price of the products. HMK® Moeller Stone Care shall not be liable for any consequential damages. No other warranty or representation is made or implied.
