MOELLER STONE CARE

PRODUCT SPECIFICATION

HMK[®] S731 - SILANE IMPREGNATOR FOR PROFESSIONAL USE

- for all absorbent natural and artificial stones and brick surfaces
 - without color enhancer
- reduces water and dirt penetration and potential frost damage

HMK[®] S731 is a ready to use silane based impregnator that reduces the penetration of water and dirt into rough or honed natural stone surfaces (soft and hard stones), concrete block and unglazed bricks. HMK[®] S731 is vapour permeable and suitable for internal and external use. The color and structure of the surface is affected only minimally.

Instructions: If under floor heating exists, switch it off and allow the surface to cool. Clean surface thoroughly and let it dry (max residual moisture of 6-8%). Apply HMK[®] S731 generously and evenly with a paintbrush, roller with short fibres or HMK[®] Z950-Z951 Application Brushes. Repeat treatment for very absorbent surfaces after 20 minutes. For less absorbent stone surfaces, remove excess with a paper towel before it dries.

Note: Do not allow HMK[®] S731 to dry on the surface as it will be very difficult to remove once dried. Do not walk on the treated area until HMK[®] S731 has dried completely, around 4 to 6 hours. Protect surface from rain and humidity for three days after treatment is applied. Do not apply HMK[®] S731 to rubber, plastics, varnished surfaces and solvent intolerant surfaces.

If applied to walls, use HMK[®] S233 instead as it can be sprayed onto the surface.

To clean surface thoroughly before treatment use HMK[®] R155 Intensive Cleaner - acid free.

For regular cleaning and continued protection use HMK[®] P324 Liquid Stone Soap, a no-rinse natural product.

Coverage: About 3-10m²/litre.

Warning: Chemical product. Contains Turpentine Substitute. Flammable. Keep away from heat, sparks and flame. Harmful or fatal if swallowed or inhaled. Ensure the area to be treated is adequately ventilated. Avoid eye/skin contact. If exposed wash/flush with water and seek medical attention immediately. Keep out of the reach of children. See Material Safety Data Sheet for more detailed information.

Packaging: 12 x 1 litre bottles/box; 2 x 5 litre cans/box; 2 x 10 litre cans/box.

Storage: Store in cool place and keep lid tightly closed.

Testing: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance. Do not use the product in temperatures below 12° and above 25°C.

Limitation of liability: The liability of HMK[®] Moeller Stone Care for defective products and any claims for damages whatsoever is limited to the purchase price of the products. HMK[®] Moeller Stone Care shall not be liable for any consequential damages. No other warranty or representation is made or implied.
